

CS 307: Software Engineering

Homework #3

Due on October 3, 2025 at 11:58pm

Problem 1

Read the paper titled “No Silver Bullet—Essence and Accident in Software Engineering” by Frederick P. Brooks, Jr.

Write a two to three page report summarizing the paper and relating it to your project work as well as future career and job prospects.

Submission

The report should be double spaced with a 12pt font similar to Times New Roman.

Your paper should be submitted in PDF format on Gradescope. It should be relatively concise and well written. You are (hopefully obviously) expected to use proper spelling and grammar.
